Faculty Meeting in Lecture Room of College Building at 6 P.M.
Present: Profs. Roe, Howard, Harris, Hodgkin and Latimer and the Dean.

Prof. Gorgas states that this meeting was called to discuss the relations of P. H. Austen, M. D., D.D.S. late Prof. of Dental Science and Chemistry, owing to a misunderstanding existing on the part of P. A- in regard to his resignation of the above chair.

After considerable discussion, the following Committee was appointed, on Motion of Prof. Roe:- Profs- Gorgas, Howard & Harris, for the purpose of drawing up a letter to P. Austen explaining the action of the Faculty on the receipt of the verbal resignation he made to the Dean in September last.

The Dean also read to the Faculty the Lease and Agreement with J. Beinel for the new College Building S. E. Cor. of Eutaw & Lexington Sts. into which it is proposed to move the College at the end of the present Session, which, being satisfactory, the Dean was empowered to sign the same on behalf of the Baltimore College of Dental Surgery.

No further business offering, the meeting adjourned untill Tuesday evening next, Jan 19, 1875.

W. J. L. Gorgas.
Dean of Faculty.

Baltimore, Jan. 19th 1875.

Faculty Meeting in the Lecture Room of College Building, at 6 P.M.

Present: Profs- Gray, Harris, Frederick and the Dean.

The letter of explanation, report by the Committee appointed at the last meeting, was presented to the members present for their approval, and on motion of Pro. Gray, was adopted, and the Dean directed to send a copy of the same to Dr. Austen, with the understanding that as soon as a reply was received, a Special meeting of the Faculty be called to consider the same.

The letter is as follows:

Balto. Jan. 20. 1875.

P. L. Austen. M.D. D.D.S.

Dear Sir

The Faculty of the Balto. College of Dental Surgery, at a meeting held last evening, desired me to express to you their regret on learning that you labor under the impression that they have ceased to entertain for you the highest regard, as well as appreciation for your valuable services; And are surprised to learn that you consider yourself to have been treated with indignity by them.

The Faculty desire to assure you that they certainly and positively understood that you had expressed your inability to fill the Chair of Dental Science and Chemistry for the present Session, and reviewed the statement you made to Pro. Gray, and also the

one now made to Mr Cowman, of the Firm of Linthwaite & Cowman, in relation to your removing with your family to another State in order to take up your residence there, and, to Mr C-, that you did not desire the Hon. Commissioner of Int. Revenue, to send any Commission to you, as you would take no further interest in Dentistry and had dissolved all connection with the same, as a verbal resignation of the Chair you held in the Balto. College of Dental Surgery; and also, as regards the second statement, as indicating that you had turned your attention to a wholly different occupation. To understand the matter, the Faculty filled the Chair of Chem. & Dental Science by a new appointment.

The Faculty also desire to assure you that the reason why they refused to accept your proposition to deliver optional lectures at such times as might suit your convenience, was on account of the irregularity of such an arrangement, and not that they undervalued your services in this respect.

I am authorized by the Faculty of the Balto. College of Dental Surgery to make you the following proposition: That you accept the position of Emeritus Professor of Dental Science, with the understanding that you deliver ten lectures per Session, one lecture per week, and receive as compensation for the same the sum of ten dollars per lecture; and that you deliver during the remainder of the present Session five lectures, one lecture per

week, receiving as compensation for the same, the sum of Ten dollars for each Lecture delivered.

Please answer as soon as convenient.

Respectfully &c.

W. L. L. Gorgas.

Dean of Faculty.

P. S.

The "Card of Lectures" on which your name appears was not gotten up by the Dean, but by Cushing & Bailey from the Catalogue (so far as the names of the Faculty are concerned) as an advertisement, and sent to the Dean by them for distribution as such.

Your name was not used by the Faculty in connection with the College, except in the Catalogue which was issued before you informed the Dean of your intention to be absent from the city during the winter. I deem this explanation due you in view of what this letter indicates in relation to the verbal resignation of your position in the College.

W. L. L. G.

On motion it was voted that hereafter regular Faculty meetings be held on the third Tuesday of every month during the Session of the College, at 7½ P. M.

No further business remaining to be considered the meeting adjourned.

Faculty Meeting in the Infirmary of College, at 6 P. M.

Present: Profs. Roy, Howard, Harris, Hodgkin, Latimer and the Dean.

This meeting was called to receive the answer of Dr. P. H. L. Austin to the letter addressed to him by the Faculty; at the meeting held Jan., 19. 1875. as follows:

Prof. P. H. L. Austin.
Dean of the B. C. D. S.

Dear Sir

Your letter of the 20 inst. is before me. Its remarkable contents fail to justify the embarrassing position in which the Faculty have placed themselves.

Permit me for answer to tender my resignation as Senior Professor in the Baltimore College of Dental Surgery, holding, up to this date the Chair of Dental Science and Chemistry.

Respectfully Yours
P. H. L. Austin.

No 8 Cathedral St.
January 21st 1875.

This letter was duly considered, and the Dean directed to forward to Dr. P. H. L. Austin, the following resolutions.

of his resignation:

Sir,

I am directed by the Faculty of the Baltimore College of Dental Surgery, to acknowledge the receipt of your Communication of the 20th inst.

While accepting your resignation of a Professorship in the College, the Faculty cannot admit its occurring on the date specified by you.

Respectfully, &c.

H. H. Gorgas.
Dean of Faculty.

The petition of Mr A. T. Burt, of Hillsboro, Va. a matriculant of the present session, asking for the return of his fees on the ground that he has not attended to College duties since the first month of the Course, was refused, on account of dissipation on the part of the petitioner being the cause of his non-attendance. Also one from Mr. W. A. Oliver, of Fair Bluff, N. C, a matriculant of the present session, on the ground that he finds now that he cannot combine medicine and dentistry in practice, which was refused likewise. No further business remaining to be considered the Faculty meeting was adjourned.

H. H. Gorgas.
Dean of Faculty

Baltimore Jan. 29th. 1875.

Faculty Meeting in the Lecture Room of College Building at 6 P.M. Called to order by the Dean. Members present: Drs. Howard, Harris, Hodgen, Latimer & the Dean.

The Dean stated to the Faculty that owing to a desire of the General Members, he deferred sending the letter of acceptance, determined upon at the last Meeting, to Dr. Austen, and had called this special meeting of the Faculty, in order that a letter expressing the sorrow and valuable loss of Dr. Austen with a request to him to remain in the College, might be prepared in lieu of the one written at the meeting of Jan. 25th.

The following letter was prepared, adopted by the Faculty, & the Dean directed to send a Copy of the same to Dr. Austen;

Balto. Jan. 30th 1875.

N. P. G. Austen

Dear Sir

Your letter of the 21st inst. was received and laid before the Faculty of the B. C. D. S. at a meeting held last evening, and I am directed to inform you of the explanation of the resignation, it contains, of the Chair of dental Science & Physiology. It is with considerable regret that the Faculty learn of your determination to relinquish the

position of "Emeritus Professor of Materia Medica", for all of you, without a single exception, recognize your relation to the interests of the College that are your connection with it, and are fully aware of the obligations it sustains to your withdrawal.

We also went to learn that the use of the term "with the understanding" in connection with the proposition made you in regard to the "Emeritus Professorship" was misunderstood. The intention of the Faculty was that the time for delivering these lectures should be determined by yourself, and also that it should be optional with you to deliver the number of lectures specified, or a less number if you can properly do so. With the above explanation, the Faculty hope that you may be induced to reconsider the matter and accept their proposition.

The only question now at issue between yourself & the Faculty is that relating to the time of your resignation and they indulge the hope that you will in generous consideration to them the motive of intentionally doing nothing to wound your feelings, or in any respect whatever treating you with indignity. On the contrary every member sincerely regrets that any difference should have arisen to interrupt the pleasant associations which have heretofore existed.

Respectfully &c.

W. E. Bowman,

Dean of the B. C. of P.

No further business coming before the Faculty meeting adjourned.

W. E. Bowman, M. D. Sec'y B. C. of P.

Baltimore, Feb. 20th 1875.

Faculty meeting in College Building at 1.30 P. M.

Present: Profs. Ives, Howard, Harris, Hodges, Latimer and the Dean.

The following letter having been received by the Dean from Prof. P. H. Austen, was presented to the Faculty:

"Austen, W. Va. Feb. 17/75

Prof. F. L. Gorgas. Dean. B. C. of S.

Dr Sir

The circumstances under which, and the terms in which the Emeritus Professorship is offered to me, make its acceptance quite impossible. Permit me to refer to the fact that in each monthly issue of the Journal, of which you are Editor, (including the Feb. Number), you have officially published me as holding the Chair of Science & Chemistry; yet six months ago, you "certainly understood me as resigning" it, and, one month ago, you were in receipt of my actual resignation.

I trust you will be as prompt in removing my name from all future circulars, programmes and advertisements of the College, as you were in filling the vacancy from a supposed resignation.

Very respectfully Yours

P. H. Austen."

Prof. Austen persisting in misunderstanding & misrepresenting

action of the Faculty, after repeated efforts at reconciliation on their part, and with the strongest evidence that no injustice whatever had been done towards P.W. Austin, concluded to lay the matter on the table, and thus end it.

No further business claiming attention the meeting adjourned.

[illegible] called to [illegible] death of Profs. Edward Floyd & Lloyd Howard, [illegible] [illegible] [illegible]

Baltimore. Sept. 21st 1881.

Faculty meeting held in College Building at 5 P.M.

Present: Profs. Hodgkin, Winder, Harris, Latimer & Gorgas.

The Committee appointed at the last meeting held Sept. 7th 1881. to draft suitable resolutions expressive of the feelings of the members of this Faculty regarding the death of Prof. E. Lloyd Howard, M.D. reported as follows, and the same was adopted:

IN MEMORIAM.

At a meeting of the FACULTY OF THE BALTIMORE COLLEGE OF DENTAL SURGERY, held September 21, 1881, the following Resolutions were adopted:

Whereas the unexpected close of a promising and useful life in the death of PROF. EDWARD LLOYD HOWARD, M. D., who for the past thirteen years has been an honored member of this faculty, renders it obligatory upon his colleagues to express their high appreciation of his exalted character and professional worth, and to place on record their regret for his loss and their sense of his merit:

Resolved, That in the death of Prof. HOWARD our college has been deprived of an efficient teacher, and this Faculty one of its most cherished members, who, by his labors and sacrifices in behalf of medical science, his courage and devotion amidst the gravest dangers of contagion and death, his lofty aspirations for the advancement of the science to which he devoted his life, and his untiring efforts in behalf of afflicted humanity, has merited the meed of praise and afforded an example worthy of imitation by his professional brethren and entitled him to the respect and gratitude of this community.

Resolved, That the Dean be directed to present to the family of the deceased a copy of these resolutions, together with a life-size portrait, with assurances of our sincere sympathy in their bereavement; also resolved, as a further mark of respect, that a similar portrait be hung in the faculty room of the College.

The Faculty then proceeded to supply the vacancy in the Chair of Chemistry caused by the death of Prof. Howard.

Applications for the position were received from Drs. J. E. Lindsey, Chas. L. Bevan, H. Clinton McSherry, J. E. Atkinson, L. Benton W. Towry, and L. R. Rogers. On motion of Prof. Winder, it was resolved that a Lecturer on Chemistry be elected for the ensuing Session (and that the Chair be permanently filled in March 1882.) the salary of said Lecturer to be five hundred dollars; which was adopted. The Faculty then proceeded to elect a Lecturer on Chemistry for the time specified and the choice made was Dr Lindsey, formerly Dean & Professor of Chemistry in the Washington Medical College. It was distinctly understood that the proceedings of this and all Faculty meetings be regarded as private by every member.

On motion of Prof. Latimer it was determined that a portrait of each member of the Faculty be obtained on his decease to be hung in the Faculty Room of the College; and that the portraits of all heretofore deceased be obtained for the same purpose, the precedence to be given to those of the late Profs - Piggot, Noel and Howard. One of each of such portraits to be placed in the Faculty Room and another to be presented to the family of the deceased. Two portraits to be furnished each year until the number is completed.

The Hours of Lecture &c. for the ensuing Session were then determined.

No further business claiming attention the meeting adjourned.

The Committee appointed to examine the books of the Dean made the following report:

"The following Committee appointed to examine the accounts of Professor F. J. Gorgas, Dean of the Balto. College of Dental Surgery, having performed that duty, report that they find them correct as to all receipts and expenditures for the Session of 1881-82 and supported by all proper vouchers and papers."

Committee.

The annual statement of the financial condition of the College was then made by the Dean.

On motion of Prof. Gorgas: Resolved: That all beneficiary certificates from State Dental Associations or the Provident Fund must thereof be obtained prior to the commencement of the College session at which they are to be used, and due notice thereof given to the Dean.

On motion of Prof. Latimer: Resolved; That the Dean be empowered to make all the necessary arrangements for the annual Commencements of the College, and to assess the members of the graduating class the sum of $5. for such expenses; provided that the class shall have the privilege by determinate by a majority vote prior to the 20th day of November next as to whether a ball shall or shall not be held.

On motion of Prof. Winder: Ds Jno. C. Ulher and W. E. Finn, were appointed Examiners of Practical Dentistry, and Ds B. Merriman and R. Lee Smith, Assistant Demonstrators for the ensuing year.

A Communication from the Board of Visitors was presented by the Dean, to the effect that the Chairman of the Committee of said Board, appointed to be present at the final examinations of the Graduating Class, had been refused admission to the examinations of Prof. Jas. H. Harris, accompanied with the following resolutions;

"Resolved, That this Board in appointing a Committee "to attend the final examinations of the Graduating Class, and to advise with the Faculty as to the qualifications of candidates for the degree of D.D.S." in accordance with the Faculty, considers that Committee as its representative in the performance of a specific duty."

Resolved, That the act of the Professor of Clinical Dentistry in excluding the Committee or a member thereof so appointed from his examination in his department of the candidates for graduation on Wednesday, March 1st 1882, was, in the opinion of this Board, not only a violation of the compact between the Faculty and the Board, but was a marked and inexcusable indignity offered to this Board through its representative."

"Resolved, That this Board being without authority in the premises, looks to the Faculty to so deal with this act of discourtesy, as to insure in the future that consideration which its relations to the College, its character and its services should command."

Resolved, That a copy of these resolutions, and of the statement made by the Chairman of the Committee of examinations be transmitted to the Faculty."

Whereupon Prof. Latimer offered the following resolution, which was adopted.

"Resolved; That the Faculty has heard with extreme regret of the rudeness shown the representative of the Board of Visitors by Prof. Jas H. Harris, and that they will endeavor to carefully guard against any such indignity in the future."

Prof. Latimer then made the following charges against Prof. James H.

Harris: "Inasmuch as Prof. James H. Harris has within the knowledge of this Faculty, been repeatedly convicted of untruthfulness:

"1st In declaring that he would withdraw all opposition to the union of the two Dental Schools – Balt. College of Dental Surgery with Maryland Dental College – and very shortly after writing to Prof. Hodgkin inviting him to further opposition on the ground that the medical members of the Faculty were having too much influence in the school, and subsequently denying all knowledge of said letter.

2nd When charged with defamation of character of a member of the Faculty on the sworn testimony of two reputable gentlemen, he declined to deny the whole or any part of the charges when confronted by his accusers, but immediately such confrontation became impossible, he denied the whole and every part of the accusation."

"3rd He declared to Prof. Gorgas that had he been present on the appointment of one of the Demonstrators of Dentistry, the Faculty would not have dared to make such appointment, and subsequently denied having made any such statement."

"4th. He approved and advised the removal of the College from the Building rented from Mr Bernei, and subsequently incited that Gentleman to oppose such removal, stating to him that he (Dr. Harris) was opposed to it, and that the reasons urged by the Faculty for desiring to release them from their lease was not correct."

"5th Within a few hours after his attention had been called in open meeting of the Law forbidding the communication of proceedings in Executive meeting to outside parties, he did communicate such information to another, [illegible] with comments as to that which he did not know, thus violating the confidence of the Faculty and falsifying the vote assent given to the Law."

6th "De entered into an agreement by which he was bound to admit the Board of Visitors or their Representatives to the examinations of candidates for the degree of D.D.S. in this School, and that he had denied that privilege to their Representative, thus violating his written agreement and making, unless properly explained, void the Faculty Charter to his Trustees and Fellows in his violation of compact."

The following charge presented by Prof. Judekin was read as an amendment and claimed as number

"7th That Dr. James H. Harris violated a pledge made by him to the Faculty in March 1880, That he would agree in the future to treat & speak of Dr. R. B. Winder with the consideration which he Winder deserved, in that Dr. J. H. Harris said to Dr. S. Hardy that Dr. Winder was incompetent to operate on his (Hardys) mouth."

On motion of Prof. Latimer and by consent of Prof. Harris, Wednesday afternoon, March 29th 1882. at 2 P. M. was appointed for the consideration of the above charges by the Faculty.

Prof. Latimer also called attention to the rule requiring secrecy as to all matters transpiring in Faculty meetings.

No further business requiring attention, the Faculty meeting adjourned to Wednesday, March 29th 1882. at 2 P. M.

Owing to requests made by Prof. Harris the next meeting was not held until April 19th 1882.

[illegible] Dean presented the resignation of Dr. Jas. [illegible] a member of the Faculty of the Baltimore College of Dental Surgery, on motion of Dr. Palmer the resignation of Dr. Jas. [illegible] was accepted. The Dean then presented a communication from Dr Jas. [illegible] Harris, which, by unanimous consent, was read as follows:

Baltimore March 29th 1882.

"To the Faculty of the Baltimore College of Dental Surgery.

Gentlemen,

"Charges having been brought against me to obtain my removal from this body, I desire to state before replying to them categorically that I feel satisfied that they have been instituted solely by [illegible] not in the College, but I fear by a personal dislike of mine, and feel satisfied that this would appear plainly to anyone whose eyes were not blinded by prejudice. What can be more complete evidence against the charges than the fact that one of the gentlemen making them has gone the length of bringing before the Faculty matters which have been finally settled by the action of the Faculty, in which action he himself concurred, the grievance about which [illegible] now complains. The record of this transaction can be cited but once he be charged with the most heinous of crimes. It is a matter attaching my professional character as a professional man, a gentleman, and a man of honor, that a gentleman after having once sat as a judge in the case & having delivered his opinion & concurred in the action & result in favor of certain persons who desire the matter to be reopened, that the affair was settled and that they could have nothing further to do with it, now presents the extraordinary [illegible]

of absenting myself from the Faculty meeting & signing the resolutions which I had assisted in drafting. As to the 1st Charge, I beg to state that no allusion was made to the letter written by me to Dr Frodsham some one & a half years after it was written, & when the matter was first spoken of I had for the moment forgotten it & stated that I did not remember it; but as soon as my memory was refreshed as to the fact of its contents it came to my mind, and I admitted having written it. The circumstances under which it was written are to the best of my recollection as follows: The Faculty had concluded to effect the union of the two Colleges, but no papers had been signed, nor in fact had any official statement of our determination been sent to the Maryland College. On the same day as the Faculty meeting I sent the letter to Dr Frodsham, referred to in writing, telling him that I was afraid that possibly we had allowed ourselves to be too much influenced by the medical members of the Faculty regarding matters as to which we, the dental members, should be better qualified to judge than they. That any one can see in this statement any want of respect to the medical members of the Faculty or any impropriety in my writing said letter to a colleague in the Faculty I cannot imagine. As far as my having told an untruth in reference to the writing of the letter, I regard the charge as too absurd to be considered, for regardless of any sentiment of honor it would have been a species of idiocy for me to have denied it in the presence of the very man to whom it was written & who was liable to produce it any moment. Evidently no pains were taken to have the charges strictly truthful, for they say that I was confronted by sworn witnesses testimony, whereas an examination of the papers will show that at the time that Drs Hunter and Van De Water were before the Faculty, their statements were unsworn, the affidavit having been suggested at the Faculty meeting by Dr Winder. I would also say that I did state at the time

these charges were made in the presence of Hunter & Van De Water, and in the presence of the Faculty (as Dr. Gorgas remembers) that I had no recollection of having made any such statement, and immediately upon the adjournment of the Faculty meeting I went to Washington & called upon Dr Hugo who was present at my interview with Dr Van De Water & he confirmed my recollection of it by stating that to the best of his recollection Dr. Benders name was not mentioned during the conversation. Having thus had my recollection fully confirmed as to this interview, I felt no hesitation in making an affidavit to the facts in the case, the only reason of my delay being my desire to be fully satisfied as to the correctness of my own recollection so far as was possible before making oath to my statement.

Regarding the 3d Charge, I would say that I do not remember using the word dare in speaking of the appointment of Demonstrators as stated by Prof. Gorgas, & think he is in error about the matter.

Regarding the 4th Charge, that I advised Mr Bernei not to release the Faculty from their lease upon his premises, I would only state that I never did give Mr Bernei any such advice, as on the contrary in many respects the proposed removal was preferable to myself, and so stated to Mr Bernei; and the absurdity of the idea that I could in any way be benefitted by such a course of action upon the part of Mr Bernei is too ridiculous to admit of discussion. I did say to Mr Bernei that in some respects the location of his building might be better for us, but said also that unless he could give us a larger lecture room that we would be forced to work for a larger building. That I had heard much complaint on the part of the students on account of the small lecture room. Mr Bernei said he hoped to be able to obtain the adjoining building when he could give us all the room we wanted. I requested him to settle the question as soon as possible, and to notify Prof. Gorgas. He learned that the building

could not be had and so informed Dr Gorgas.

Regarding the 5th Charge; that while I might readily decline to answer it as its character is so vague and sphynx-like as to give no information as to either time or place or person, yet from an extraordinary communication which I received from Dr. Latimer some time since, I am aware that he alluded to a conversation between Dr. Bevan and myself about the time of the election of Dr Lindsay. The conversation was, to the best of my recollection about as detailed in my reply to Dr Latimer, a copy of which I subjoin:

271 N. Eutaw St. Balto. Sept. 24th 1881.

Dr Thos. S. Latimer.

Dear Sir,

Yours of yesterday is before me. When I returned from our meeting Wednesday evening, I found that Dr. Bevan had just left: consequently after supper I called on him. Soon after the death of Prof. Howard, I received a letter from Dr. Bevan saying he was an applicant to fill the vacancy, and asked me for my support. He being a member of the Faculty and having worked with us satisfactorily, I committed myself to him and felt but little hesitation in doing so, he being a friend; and besides I felt that he no doubt would have the support of the Faculty. Now in committing myself I may have done wrong, but at the time did not think so. After doing so I did not feel that I was acting in bad faith towards any one in saying to Dr. Bevan that I had made good my promise. At the same time told him that I questioned whether it was proper even under the circumstances for me to inform him how I voted: to which he replied this is between ourselves and with the understanding that it would go no farther I informed him, and all things considered did not feel that I was doing wrong, but it has turned out to be a mistake and one which will not occur again.

He stated from conversations had with yourself and Dr. Gorgas, that he expected you both to support him, and said that if Dr. Gorgas had voted for him there was but one solution of it. To this I remarked "so it would seem"; but said "Dr Bevan you know it would be wrong in me to inform you how the others voted even if I knew". Dr Bevan is mistaken — if he says that I informed him that Dr. Gorgas voted for him. We did remark during our interview that from the conversations had between them as related to me by Dr. Bevan, it would seem reasonable to infer that he did, but said also the same would hold equally good of yourself. Now this is about the conversation as I remember it; and regarding Dr Bevan as a friend and having committed myself, did not see how I could well say less to him, and especially as I regarded it in confidence. I regret that any mistake or unkind feeling should have grown out of it, and can only say that no intentional wrong on my part was intended towards yourself, or any member of the Faculty, and I am sorry that such an impression has grown out of the interview between Dr Bevan and myself. I had no thought that such would be the case at the time. I have no objection to meeting you with Dr Bevan if desired. Before writing you such an unkind letter I would have given you an opportunity to offer an explanation.

Signed; Respectfully, Jas. H. Harris.

P.S. I also stated to Dr. Bevan that the Faculty spoke kindly of him, and that I could only account for his defeat because of Dr Lindsays long experience as a lecturer on that particular branch."

There is only one thing that I regret in this letter which is that I should have expressed a doubt as to my right to inform Dr Bevan which way I voted and especially after committing myself to him. I am of the opinion, on

more mature deliberation that this was a matter of my own choice: besides the question was not voted upon, and while I had no right, even if I knew, to say which way any other member of the Faculty voted, I cannot see that it was any breach of confidence for me to disclose my own act. There is a question of propriety regarding the secrecy of Faculty proceedings yet I would be greatly obliged for a reference to the particular law which is said to have been violated, as at this time I am unaware of any such as having an existence.

Regarding the 6th Charge: I would say that the Board of Visitors, as at present constituted, really has no legal status, as a reference to the charter of the College will show, as they were elected by the Faculty, and not as required in the act of incorporation by their predecessors in the Board, consequently at present the College has no Board of Visitors legally constituted, and while I would not at ordinary times make any point of this, I regard it as proper to be mentioned here.

The member of the so-called Board of Visitors, whom I have been accused of treating with such rudeness and excluding from my examinations, is a certain Dr R. Finley Hunt. This person is one of four who have joined in sending out a scurrilous publication against me & who I know has called upon gentlemen of my acquaintance, and made statements derogatory to my standing and character. Under these circumstances I felt that neither my self respect nor dignity would permit me to hold any intercourse with this man either officially or otherwise, and that I see no reason to regret my determination. Had he been possessed of the proper amount of delicacy, he would not have endeavored to thrust himself upon me and constrained me to give him this rebuff.

Regarding the Charge made by Dr Hodgkin I have the following statement to make: Dr Hardy had spoken to me to perform an operation upon his mouth, and subsequently called at my office to say

that he had made an engagement with Dr. Winder to meet Dr Latimer at his (Winders) office to have the operation performed. His object in calling, it seems, was to set himself straight with me, and he would still employ me if I said so. I advised him to keep his engagement with Drs Latimer and Winder, and have the operation performed. Dr Hardy then asked me which of the two I would prefer to have perform the operation if it was my mouth. I told him that either could do it for him, but as Dr Latimer was more in the habit of operating I would prefer him, and that he would do it better than either Dr Winder or myself. He assured Dr Hardy he would say nothing about our conversation, as it was a professional matter, and besides Dr. Winder might take exceptions to it. He assured me that he would not mention the matter. I was recovering from a violent attack of headache, and don't think I got up off of the lounge during our conversation. This is about the conversation to the best of my recollection, though it has been 15 or 16 months since our interview with Dr. Hardy. But what strikes me most forcibly about this extraordinary charge of Dr Hodgkin is that I violated a certain agreement, or pledge, made to the Faculty to treat and speak of Dr Winder with proper consideration, &c. Now Dr. Hodgkin was fully aware of the fact when he preferred this charge that Dr Winder had violated it long before by allowing certain takers (private) to pass through his hands into the hands of Dr Hunt; and that Hunt had gone from office to office and exposed them, and only one side of the question, and sought thereby to undermine my personal character. I submit that under these circumstances I would have been fully justified even if I had broken my covenant of Dr Winder, for certainly I am not to be expected to submit to attacks upon my character without having the right to answer them. Dr Hodgkin, himself, knows that what

has been the conduct of Dr Hunter & his friends in this matter.
To my mind it is plain that this charge is only in continuation of the work that was begun by Dr. Hodgkin of trying to damage myself, to accomplish which end he has been guilty of sending out private papers and making statements which I can prove to be false. And now as a crowning offense this gentleman proposes to sit in judgement upon me, when I am charged with violating the confidence of the Faculty, when he himself has been guilty of the same offense as I am prepared to prove by the letters now in my possession.

And now Gentlemen it does seem to me that even the authors of the charges brought against me must acknowledge that the said charges were gotten up with a total disregard of any attempt at fairness, or honesty; for all of the facts stated in this paper if they were not all known to the authors they could easily have been known to any one making proper enquiry. Surely when these charges were written their extreme pettiness must have made a feeling of littleness steal over their authors which caused their pens to falter; for so trifling were the incidents from which they were manufactured, that they would never have received a passing notice but for the very paucity of material with which to feed the fierce fires of unjust enmity towards me. Although the charges were unworthy of notice, yet I have deigned to answer them; but since there are among you those who could be guilty of such conduct as I have herein exposed, I cannot consent longer to remain connected with a body of whose members, with one marked exception, I hold so poor an opinion; therefore I have tendered my resignation to the Dean.

Very Respectfully, Jas L. Harris.
resigned

After the reading of the foregoing letter from Dr. Harris, Prof. Latimer moved that the vote on accepting the resignation of Dr. Harris be reconsidered for the purpose of Considering the Charges against him as Specified on pages of this Book Nos. 83 & 84. This motion was adopted by the following vote; Yeas: Profs. Latimer. Winder & Hodgkin: Nays: Prof. Gorgas.

The following resignation of Dr. Harris which was accepted when first presented and read by the Dean was then reconsidered by the above action:

271. N. Eutaw St. Balto. Md.
April 19th 1882.

Prof. L. C. S. Gorgas. Dean.

Dear Dr.

I hereby tender my resignation as Professor of Clinical Dentistry in the Baltimore College of Dental Surgery, said resignation to take effect at once.

Very Respectfully Yours.
Signed. Chas. H. Harris.

An affidavit from Dr. Chas L. Steel, of Richmond Va. relating to the exposure of bakers connected with the Case of Profs. Winder & Harris when first before the Faculty, and refusal to allow said bakers to be robbed, by Dr R. Finlay Hunt, was then read by the Dean.

Prof. Latimer moved that the Charges against Dr Chas. H. Resolved by Prof Latimer, that in all publications precedence be given the Dental members of Faculty in order of seniority of Faculty membership - and the same to apply to the Medical members - "carried"

Prof Latimer reported acceptance of appointments by Profs Bevan, Corbin, Lindsay & Dr Chambers -

Prof Latimer moved that the following statements correcting omissions in the Minutes of previous meetings be recorded - "carried"

In the case of the charges made against Dr James H. Harris by Profs Latimer & Hodgkin, the following facts, not on record, are deemed by the Faculty of sufficient importance to be placed on the Minutes of the Faculty proceedings -
The first charge having been read, and the answer to it made by Dr Harris in writing read also, Dr Latimer moved that the charge be considered sustained - all present voted aye except Dr Gorgas who voted no - when Dr Latimer asked him the following question - "Do I understand Dr Gorgas that you vote "no" because of your

disbelief in the truth of this charge - & that you do not consider it sustained - Dr Gorgas replied "not at all", but that his reason for voting "no" was simply, that the Faculty having voted to receive the resignation of Dr Harris, had no right afterwards to reconsider that vote and try him -

The succeeding charges were read with the appropriate answers, the same question being asked ~~by~~ Dr Gorgas by Dr Palmer and the same answers being given by him -

The charges ~~then~~ as a whole were then voted on, only Dr Gorgas voting "no" & again on demand of Dr Palmer, Dr Gorgas gave the same answer namely - that he did not vote "no" on account of his belief that the charges were not proven but simply to be consistent with his first statement that the Faculty having acted on the resignation of Dr Harris, had no right to reconsider their action and try him on these charges -

We the undersigned hereby certify to the absolute correctness of the above statement -

At a meeting of the Faculty held May 2nd 1882.
there were present Drs Snider, Lindsay, Fortin, Latimer
& Hodgkin, the minutes of the previous meeting were
read & adopted.

On motion it was resolved that the Dean be
instructed to confer with a competent lawyer as
to the propriety of taking legal steps to prevent
titles intended for this College from falling into
the hands of the Dental Department of the University
of Maryland. & that if found practicable to do
so, to institute such proceedings without delay in
legal prosecution of Dr Guyas.

On motion of Prof Fortin, it was resolved that the
original manuscript of the charges brought against
Dr James H Harris by Prof Latimer, with the ac-
companying resolution requesting his resignation,
which resolution had been omitted from the record
of the Faculty meeting of March 18th be pasted
in the records of this Faculty meeting.

Inasmuch as Prof: James H. Harris has, within the Knowledge of this Faculty, been repeatedly convicted of untruthfulness

1st In declareing that he would withdraw all opposition to the Union of the two dental schools – Balt: College of Dental Surgery with Maryland Dental College – and very shortly after writing to Prof: Hodgkin inciting him to further opposition on the ground that the medical members of the Faculty were having too much influence in the school, and subsequently denying all knowledge of said letter.

2nd When charged with defamation of character ~~&c~~ of a member of the Faculty on the sworn testimony of two respectable gentlemen he declined to deny the whole or any part of the charges when confronted by his accusers, but immediately such confrontation became impossible he denied the whole and every part of the accusation.

3rd He declared to Prof: Gorgas that had he been present on the appointment of one of demonstrators of dentistry the Faculty would not have dared to make such appointment, and subsequently denied having made any such statement.

4th He approved and advised the removal of the College from the building rented from Mr Bernie, and subsequently invited that gentleman to oppose such removal stating to him that he — Dr Harris — was opposed to it, and that the reasons urged by the Faculty for desiring Mr Bernei to release them from their lease were not correct.

5th Within a few hours after his attention had been called in faculty meeting to the law forbiding the communication of proceedings in such meeting to outside parties, he did communicate such information to another, together with conjectures as to that of which he did not know, thus violating the confidence of Faculty and falsifying his own assent given to the law.

6th He entered into an agreement by which he was bound to admit the Board of Visitors or their representatives to the examinations of candidates for the degree of D.D.S in this School; and then rudely denied that privilege to their representative, thus falsifying his written agreement and making, unless properly rebuked, the whole Faculty parties to his rudeness and fellows in his violation of compact. —

Therefore, be it

Resolved by the Faculty that his conduct is abhorrent to us, inconsistent with the true interest of the College, and that he be, and hereby is, requested to resign the chair of "Clinical Dentistry" which he now holds in the Baltimore College of Dental Surgery,

Faculty Met Dec 12th 1882. Present — Drs Latimer Foster Winder Linthicum & Hodgkin. The following letter addressed to the Post Master General U.S. was read & ordered to be recorded in these minutes —

Balto. Md. Dec 13, 1882.

The Hon. T. O. Howe,
Postmaster General,
Washington D. C.

Sir,-

The Faculty of the Baltimore College of Dental Surgery, an Incorporated & long established Institution, and for the last 13 years with the exception of the period of existence of the Md. Dental College from 1873 to 79, the only Dental College in the City of Baltimore, Md. beg leave to call your attention to certain irregularities in the delivery of their mail, & to certain conduct on the part of some parties or parties who on the 27th of April last organized the Dental Department of the University of Maryland in Balto. Md. & who have used & still suspect still were intercepting and detaining letters which were addressed to the Faculty of the Balt. College of Dental Surgery.

The facts in the case are these:
Ferdinand J. A. Gorgas, 259 W. Eutaw St. Balto. Md. was for 17 years the Dean of the Balt. College of Dental Surgery. On the 27th of April 1882 the resigned that office and all positions in the said College & accepted the position of Dean of the Dental Department of the University of Maryland & is establishing

at Dental School which until that date
was unknown.

Four days after this acceptance of the position
of Dean & Prof. Dent. Surg. & Mech. Dent. in Md. Univ.
[illegible] the date of May 1882, Dr. C. H.
[illegible] the following letter to the
Trustees of Balt. Md.

(Letter B)

In this letter it will be seen that Dr. Gorgas
discovered that because he had left the Balt
College of Dental Surgery that therefore all
[illegible] were delivered to the Dental
[illegible] proper mail of that College become his.
[illegible] to letters addressed
to the Dean of the Balt College of Dent. Surgery.
It is manifest to any one that Dr. Gorgas as Dean of a Dental School of a
Medical School, said Dept. being only a few
days old, & no evidence was undergone
save by its originators & few friends, had
not the shadow of a claim to such letters,
the writers of which could not have intended
them for him. Had they been addressed
[illegible] was the Dean, but had been
[illegible] mailed, the right inference or conclusion, to
[illegible] officially addressed him as the
existing Balt College of Dental Surgery.

Thereafter Dr. Gorgas discovered from
the Post Officers in Balt. such letters as proof
that the Dr. Reynolds was in Denver the Old
School, and the habit of receiving such letters
as this Journal + in fact many letters are received
at the Balt. Pr. Office irregular addressed
+ such mail had always been recognized as
the property of the Old School + so delivered
It is obvious that the claims of a Dental School
only a few days old must be inferior + subordinate
to those of a College which had been in existence
fourteen years + which had graduated
over eleven Hundred dentists. Indeed this
old school was universally + familiarly
known as the Balt Dental College + in point
of fact, for many years it was the only Dental
College in the world.
The fact that this claim for mail had been
made by Dr Gorgas, coming to the knowledge
of Dr R.B. Reynolds, 140 Park Ave Balt. Md.
who, on the resignation of Dr Gorgas, was elected
Dean of the Balt. College of Dental Surgery, he
filed with the Postmaster in Balt. a counter
claim for such mail.
Thereafter hearings in the case of the letters to
Dr Gorgas, those of Dr Reynolds + those of the
Balt. Postmaster were filed with the Dept in
Washington, + to which your attention is hereby
called.

Special allegations is called to the fact that in Dr Gorgas letter of May 8th 1882, he states that he does "not claim the letters addressed to the Dean of the Balt. College of Dental Surgery."

Evidence is herewith furnished that after making this disclaimer Dr Gorgas for a period of nearly a month after receiving, opening, and reading & retaining letters which were thus addressed, & that in his answers to those writing these letters he used all his influence to damage the School, whose letters he was intercepting, by writing the most open & injurious falsehoods concerning its conditions, morals, &c.

The following letters were addressed to Dr Gorgas

(1) From Hiram Bonsall, Troy, N. Y. May 6, 1882. addressed to Dr F. A. A. Gorgas, Dean of Balt. College of Dental Surgery, 257 N. Eutaw St. Balt. Md.

(2) From John A. Doty, Washington D. C. dated May 11, 1882. addressed as above.

(3) From Mrs. M. C. Fuglesang, dated May 14 1882. Markham Station, Va. addressed to Prest. or Dean of Balt. College of Dental Surgery, 257 N. Eutaw St. Balto. Md.

(4) From Everett Scott, Washington D. C. dated May 17, 1882. addressed to Dean of Balt. College of Dent. Surgery, 257 N. Eutaw St. Balto. Md.

(5) From Geo. E. Trubridge, Upper Marlboro Md. dated May 22, 1882. addressed to Dean of Balt.

College of Dental Surgery, 259 N. Eutaw St. Balt. Md.

(6) From Mrs E. F. Alexander, Laurel Md. dated May 22, 1882. addressed to the Dean of the Balt. College of Dental Surgery. 259 N. Eutaw St. Balt. Md.

(7) From Dr. J. H. Lafferty, New Florence Pa dated June 26, 1882, addressed to the Dean of the Balt. College of Dent. Surgery, 259 N. Eutaw St. Balt. Md.

(8) From J. M. Bonsall 119 S. 34th St. Phila. Pa. addressed to F. & J. S. Gorgas, Balt College of Dental Surgery, 259 N. Eutaw St. Balt. Md. dated Phila. Pa. Oct. 23, 1882. and a number of others addressed less plainly, but manifestly intended for the writers to go to the Balt. College of Dent. Surgery.

It will be observed that these letters were sent to the residence of Dr. Gorgas, the answers is made out 259 N. Eutaw St. and hence the publication of the Dean for many years & until the college letters went there.

It will not be stated that some of these were declined letters sent out to test the question as to whether or not Dr. Gorgas was receiving & detaining mail matter, properly belonging to the Balt. College of Dent. Surgery & this after the faculty & trustees

of Dr Winder brought only the response that Dr Gorgas had no mail for the Balt. College of Dental Surgery. How many bona fide letters rightfully the property of the old College stood there received & detained we have no means of judging. But our knowledge of the facts gives us reason to say that Dr Gorgas while the Dean of the Balt. College of Dental Surgery was in almost daily receipt of letters for the College, that during the month of "Oct last there was, with the exception of 3 postal cards & one letter (which Dr. Gorgas owned) no mail received by the new Dean & that since the exposure of the facts & the consequent reformation in conduct of Dr Gorgas letters came almost daily to Dr Winder on matters concerning the College of which he is Dean. We think therefore that it is probable that many such letters were received by Dr Gorgas & answered in the interests of this school to our inquiry, and he certainly answered the decoy letters believing them genuine, as his answers, now in the hand of Dr Winder, prove

But meanwhile there arose a question in the Balt. Post Office as to who was legally entitled to the letters not definitely addressed. On our side Dr Gorgas claimed these, on

the other Dr Winder.

The Balt. Postmaster not taking the responsibility of deciding this question referred the same to the Dept. in Washington Pending a decision by the Dept. the Legal counsel employed by the respective Colleges on either side agreed on a compromise & a temporary arrangement this compromise being 2 referees, to whom the disputed letters were to be sent & who were to open, read & decide to whom they belonged respectively. Prof. E. H. Nichols, a member of the Faculty of the Dental Dept. of Univ. of Md was chosen to represent Dr Gorgas and Dr. T. S. Latimer the Balt. College & Dent. & Dr Winder to represent Prof. Winder. This arrangement has existed now for several months. But the difficulties in the way to its being permanently useful & satisfactory are felt by all & we who represent the Balt. College hope some more definite solution of our legal rights. We are informed that the Univ. & the Balt. College of Dent. Surgery is in doubtful correspondence, that some letter is addressed as to make it difficult to decide for which School it is intended & by Dr Winder to the Old School.

If this be true all letters are addressed personally to Dr. Gorgas, or to him as the Dean of the Dental Dept. of the University of Md. are the property of the Balt. College of Dent. Surgery, & are desired to act thereon.

We are not aware of any such letters which are addressed to us as referred to, but should be so addressed by both Dr Gorgas & Dr Chandler.

The Balt. College of Dent. Surgery further asks that the Department decide the question whether a letter addressed to "Dr. J. H. Gorgas, Dean of the Balt. College of Dent. Surgery" is his to open & answer, & in which hands, does his name on the envelope make it his personal property if it has in addition the words "Balt. College of Dental Surgery."

The Balt. College of Dent. Surgery asks further if in protecting us from any law that their protected mail matter may be stopped, delivered to them & by what legal process or order be issued by the Post Office Dept. as will insure this.

From these above statements & correspondence that their registered letters have been tampered with, withheld, opened & returned, it is manifest that they are greatly desirous of obtaining the most explicit

would who hoped to profit by it.
And there was a hand of loyal citizens
that the Postoffice Officials take such
action in this matter, as may seem to
them most proper to secure these thieves
The question of the nature of the letters
Dr Gorgas has written in answer to this
letter he has withheld does not necessarily
come under your official cognizance, but
we are ready to show these letters to the
Department, if desired, that you may see
the manner in which we are being
injured by his misrepresentations.
The facts which we are ready to prove,
with Dr Gorgas' own very Calculy received
& held mail matter addressed to the
Dent. College of Dent. Surgery, & which he
has surrendered with demand, leads us to
believe that these irregularities
still exist & these facts compel us to request
of the Dept. such protection as the case
demands & which we feel we do not get
through the Postoffice Dept. referred.

On Motion of Dr Talmer Dr Hodgkin was
requested to discontinue his connection with
the American Journal of Dental Science on
account of the hostile attitude of the Senior
Editor Dr Gorgas towards this College.

The Faculty of Baltimore College of DENTAL SURGERY records with profound regret the death of DR. R. B. WINDER, Dean of that school.

As an executive officer he had no superior. His energy was unflagging, his intelligence unerring and his devotion to the duties of his office and to the cause of dental education was most exemplary: Therefore it is

That the members of the Faculty mourn the death of one who was in life conspicuous for his cordiality, his active recognition of the obligations of friendship and for his high social attainments.

That a copy of these resolutions be transmitted to his family, to whom in their sorrow we tender our heartfelt sympathy.

Present, Profs B.H. Smith, presiding, W.B. Finney G.E. Hardy, W.G. Foster.

Meeting was called to consider the effect that the acceptance by Prof. Wm Simon of a professorship in the dental dept. of the Maryland State University would have on the Baltimore College of Dental Surgery. As a result of the meeting the following resolution was passed, moved by Prof. B.H. Smith and seconded by Prof. Hardy. Carried. This resolution was forwarded to Prof. Wm Simon by the dean, W.G. Foster

"The members of the faculty of the Baltimore College of Dental Surgery assembled at this special meeting desire to express themselves as deeply sensible of the honor conferred

upon our Professor of Chemistry by being called to fill a similar position in the State University - We do not feel however that the Dental Department of said University can justly claim the ethical right to equally participate in the most services of Prof. Simon with the Baltimore College of Dental Surgery, but rather that to have his name appear in the Dental Catalog and his reputation as a teacher give prestige to what we must consider a rival institution, would work a hardship and injustice to the Old Baltimore College of Dental Surgery - We respectfully submit this our opinion to our beloved Professor and hope that he may be influenced by our honest views candidly expressed" -
